

Inclusion & Equality Policy

At Wynyard Tiny Tots, I am committed to providing all children in my care with the opportunity to reach their full potential. This may involve adapting activities to suit a child's individual abilities and developmental stage, offering additional resources, or providing extra attention and support during specific activities or routines.

I ensure that all children have equal access to play opportunities and toys, regardless of gender, culture, or ability (subject to health and safety considerations for children under 3 years of age). Toys and resources are carefully selected to promote positive representations of diverse cultures, abilities, and backgrounds.

Discrimination of any kind, whether based on skin colour, culture, gender, ability, or religion, is not tolerated in my care. I actively address and challenge any inappropriate remarks or behaviours to maintain an inclusive environment.

I encourage children to explore and celebrate their own cultures while learning about the traditions, religions, and customs of others through engaging and enjoyable activities. This helps to foster a healthy respect for diversity and teaches children to value and appreciate individual differences.

Parents are warmly invited to share festivals, special occasions, or traditions that can enrich the children's learning experience and broaden their understanding of the world. Together, we can create a nurturing environment where every child feels valued and respected.
