

# **Risk Assessment Procedure**

In accordance with the Early Years Foundation Stage (EYFS) requirements, I conduct comprehensive risk assessments and regularly review them to ensure the safety and well-being of all children in my care.

## **Daily Risk Assessments**

- Each morning, I thoroughly check my home and garden before the children arrive to ensure that the environment is safe for play and learning.
- Any identified hazards are addressed immediately to maintain a secure setting.

## **External Environments**

- I assess potential risks in any external environments we visit, such as the walk to school, shops, library, or toddler groups.
- For unfamiliar environments, I take additional precautions by evaluating potential hazards in advance and planning appropriately to minimize risks.

## **Documentation**

- All risk assessments are recorded on standardised forms and stored in a dedicated file.
- These records are available for parents to review upon request and for Ofsted inspections.

By maintaining a proactive approach to risk management, I aim to provide a safe and secure environment where children can thrive. If you have any concerns or questions about this procedure, please do not hesitate to contact me.
